## Features

- Stoma, size: 32-35 mm, urostomy, pouch, standard, disposable.
- Stoma, size: 38-40 mm, urostomy, pouch, standard, disposable.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Bag urine collection 32-35mm
- Bag urine collection 38-40mm

## Features

- Bag, specimen, urine collection, 2000 ml, with sample port, sterile.
- Bag, urinary, uri metric, for measuring and collecting urine, adult, disposable, sterile.

## Specification

- Manufactured from medical grade Non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Bag urine 2000ml port
- Urimetric urinary bag – Adult

## Features

- Bag, urinary, newborn 24 hour specimen collector for urine, sticks easily on the skin, does not damage fragile skin when removed, individual packaging, disposable, Sterile.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Features

- Bag, urinary, baby, size: 50 ml, non-toxic, medical, PVC material, clear printing, with ISO and Ce Certificate, Individually wrapped, disposable, sterile
- Bag, urinary, collector for pediatric, 100-200 ml capacity, plastic, graduated with label and non-return valve, hypoallergenic, adhesive, Packing: 100 Pieces/Package, disposable, sterile.

## Specification

- Manufactured from Medical Grade Non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Disposable baby urine, Bag Size: 50ml
- Urimetric urinary bag, Pediatric

## Features

- Bag, Urine leg with valve, Drainage end, Approximately 800ml, Hypoallergic, And with leg belt easy to fix and release.
- Bag, Urine leg with valve, Drainage end, Approximately 500ml, Hypoallergic, And with leg belt easy to fix and release.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Features

- Bag, urine drainage, 2000 ml capacity, with about one meter long tube, Clear and fixed numerical graduation, sample port, roller drainage valve, anti-reflux valve, universal double hook and rope hanger with kink prevention, slide clamp, shape must allow complete and efficient drainage, disposable, sterile.
- Bag, urine drainage, 2000 ml capacity, with 90 cm long tube, graduated, drainage outlet and latex specimen packing, Individually packed, disposable, sterile.
- Bag, urine drainage, 2000 ml capacity, with about one meter long tube, graduated, drainage outlet, disposable, non-Sterile

## Specification

- Manufactured from medical grade Non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Urine drainage bag 2000 ML capacity
- Bag urine drainage 2000 ML 90cm Long Tube
- Bag urine drainage 2000 ML long 1M Tube

## Features

- Controller, Infusion flow (Flow rate regulator), gravity type, On/Off mode adjustment knob (Clockwise Direction Lower Flowrates, Anticlockwise E Direction Higher Flow Rates), scale range from 2 ml to 350 ml, constant flow rate, Y-Port injection, universal male and female.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

### Item Description

- Set I.V. solution admin P.V.C
- Set I.V. solution admin. P.V.C1 60 drop/1 ML
- Set Infusion Ext. Microbore T-Connector
- Set administration iv 68in 15/20drops/ml.

### Features

- Set, I.V. solution administration P.V.C. macro drip 20 drops / 1 ml, pyrogen free, complete, hydrophobic adequate air vent, filter, tubing not less than 1.3 meter and diameter about 3-4 mm, fitted with needle G21 to luer lock device for injection of drugs at distal end, disposable, sterile.
- Set, I.V. solution administration P.V.C., tubing with vented dripping chamber microdrip 60 drops / 1ml, pyrogen free, complete, length not less than 120 cm, luer lock device for injection of drugs, Disposable, Sterile
- Set, Infusion, extension, microbore, with T connector, No pyrogenic, disposable, sterile.
- Set, administration, intravenous, 68 inch, tubing 15 / 20 drops / ml, non vented, with needle adaptor Luer lock, disposable, sterile.

### Specification

- Manufactured from medical grade Non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Fistula needle single 16G pyrogen free
- Fistula needle single 17G pyrogen free
- Fistula needle single 15G pyrogen free

## Features

- Needle, for fistula, single 16G, sharp, pyrogen free, one inch long ultrathin wall, siliconized with needle protector and back eye with non-allergic wings in which the needle can rotate freely, clear kink resistant tube fitted with female luer lock and patched cl amp, flexible wings and plastic part, non, leak-ing transparent plastic part, disposable, sterile.
- Needle, for fistula, single 17G, sharp, pyrogen free, one inch long ultrathin wall, siliconized with needle protector and back eye with non-allergic wings in which the needle can rotate freely, clear kink resistant tube fitted with female luer lock and patched clamp, flexible wings and plastic part, non, leaking transparent plastic part, disposable, sterile.
- Needle, for fistula, single, 15G, sharp, pyrogen free, one inch long ultrathin wall, siliconized with needle protector and back eye with non-allergic wings, in which the needle can rotate freely, clear kink resistant tube fitted with female luer lock.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- Single Use
- Medical paper packaged which assure the sterility of product.

## Features

- Admin set iv soln vented w/needle adaptor 68" tubing luer lock 10/15drops/ml ster.

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- DHP free
- Single Use
- Medical paper packaged which assure the sterility of product.

## Item Description

- Admin set iv soln vented w/needle adaptor 68" tubing luer lock 10/15drops/ml ster.

## Features

- Drainage, set, for wound, 10 mm flat, 3/4 fluted without trocar, and 300-500 cc bulb suction reservoir, disposable, sterile.
- Drainage, reservoir, wound suction, with anti reflux valve, 100ml, (grenade style), disposable, sterile.

## Specification

- Made of 100% imported medical-grade silicone, with anti-reflux valve.
- Can compatible with any of following drains: flat drain, fluted drain and round drain.
- Squeeze the reservoir and connect with drains for suction, the low-vacuum reservoir can make stable and effective suction for exudates can be used with wound drain tube and trocar.

## Item Description

- Bicarbonate cartridge 650 gm (4008s)
- Bicarbonate cartridge 650gm
- Bicarbonate cartridge 750 gm model 4008s
- Solution dialysate 750gm bicarbonate

## Features

- Bicarbonate cartridge, 650 gm, well sealed, easily perforated and fitted with fresenius hemodialysis machine 4008s or equivalent
- Bicarbonate cartridge, 650 gm, well sealed, easily perforated and it should be fitted with filters in both ends, and fitted with gam bro and b braun and other hemodialysis machines or equivalent
- Bicarbonate cartridge, 750 gm, well sealed, easily perforated and fitted with fresenius hemodialysis machine, model 4008s or equivalent
- Bicarbonate cartridge, 750 gm approximately, well sealed, easily perforated and it should be fitted with filters in both ends, and fitted with gambro and b braun or equivalent and other hemodialysis machines

## Specification

- Bi Cart cartridge - Essential component of a system designed for ultrapure dialysis fluid to avoid treatment related inflammation
- The Bi Cart cartridge is central to the dialysis fluid delivery system, offering
- A hygienic method of bicarbonate supply from a dry-concentrate cartridge
- Eliminating the risk of contamination and bacterial growth
- Lighter and smaller container, removing strain associated with lifting heavy canisters
- Cap closure for cleaner post-treatment environment.
- Less storage space required
- Tougher hygienic and ergonomic demands required an upgraded bicarbonate supply. With its introduction, the Bi Cart cartridge set a new global standard in bicarbonate dialysis.
- Different volumes
- **Bi Bag**  
Sodium bicarbonate in powder form to make a dialysis solution suitable for Fresenius Dialysis machine

## Features

- Clean cart c, (purification cartridge containing 32 gm of citric acid monohydrate powder that enables on-line (close circuit) of citric acid solution, for machine decalcification/disinfection)
- Clean cart a, (purification cartridge containing 13 gm of anhydrous sodium carbonate powder, for machine cleaning/disinfection)

## Specification

- Clean Cart C cartridge contains 32 grams of citric acid anhydrate powder. The Clean Cart C cartridge is used in combination with the heat disinfection program to both decalcify and disinfect the dialysis machine fluid path simultaneously. When circulated throughout the fluid path, the citric acid solution removes precipitated salts of calcium and magnesium. Cleaning cart A for GAMBRO dialysis machine. The Clean Cart A cartridge contains 13 grams of anhydrous sodium carbonate powder.
- It is used in combination with the heat disinfection program to clean the dialysis machine fluid path. When circulated throughout the fluid path, the sodium carbonate solution removes organic deposits, fats and proteins.

## Item Description

- Clean cart c 32gm of citric acid.
- Clean cart a 13gm-anhydrous naco3 powder

## Item Description

- Blood line secure blood pump 600 ml.
- Blood line 2needle adult nlt 290mm.

## Features

- Blood line, for braun dialysis machine or equivalent, hd, secure Blood pump, 600 ml, consisting of arterial line, p.v.c. medical grade one with male luer lock to fit with fistula needle, infusion cannula with spike & connector cap, line clamp, injection port, pump segment length 30 mm i.d. 6 mm, heparin line, female luer lock to fit with dialyzer venous line, p.v.c. medical grade one with, injection port, drip chamber with filter, level control line, pressure monitoring line with transducer, line clamp, male luer lock to fit with fistula needle, drainage bag, bypass connector, sterilization method: eto or steam or gamma radiation, disposable, sterile.
- Blood line for dimax nipro or equivalent, double needle, adult, consisting of arterial line: p.v.c. material, medical grade one with male luer lock to fit with the fistula needle, infusion cannula with spike and protector cap, line clamp, injection port, pressure monitoring line with transducer protector, pump segment length not less than 290 mm, heparin line, post pump arterial chamber, venous line: p.v.c. medical grade one with female luer lock to fit with dialyzer, drip chamber with filter, level line, pressure monitoring line with transducer protector, injection port, line clamp, male luer lock to fit with fistula needle, drainage bag, bypass connector, ethylene oxide, sterilization, sterilization method: eto or steam or gamma radiation, disposable, sterile

## Specification

- Manufactured from medical grade non-toxic PVC.
- Sterilization by ETO
- DHP free
- Single Use
- Medical paper packaged which assure the sterility of product.
